

# Step away from your desk and gather around Journey.

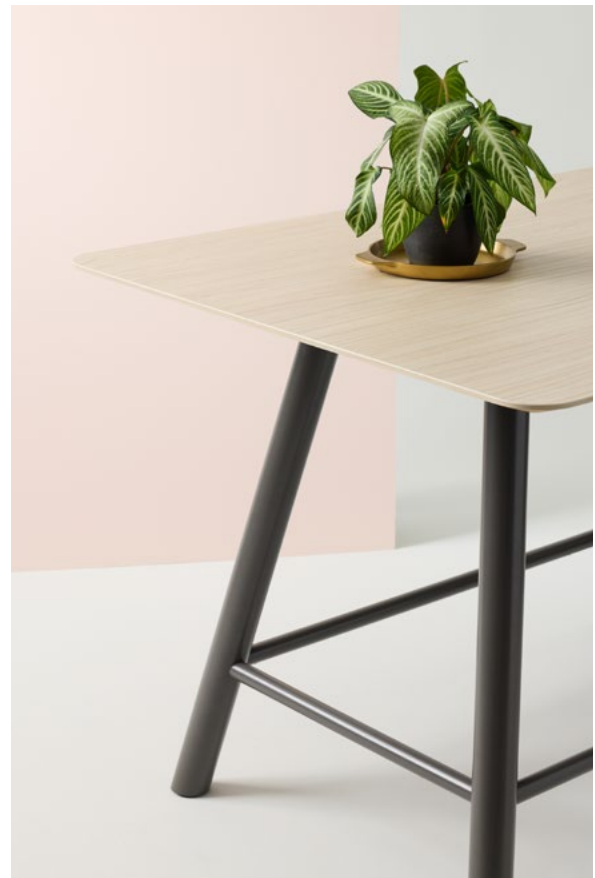

THIS COLLECTION WAS DESIGNED FOR COLLABORATION, TO BRING PEOPLE TOGETHER AND TO CREATE MEANINGFUL SOLUTIONS FOR YOUR GATHERING SPACES.

---

## VERSATILE & APPROACHABLE

Journey is comprised of conference, café, and occasional tables that work seamlessly with an assortment of casegoods, including both credenzas and buffets.

Journey delivers an elevated design that invites collaboration. Its simple forms are filled with thoughtful details, making it functional and practical. With its extensive line, Journey easily adapts to what you need and allows you to define distinct and meaningful gathering spaces within your office.

**WHETHER YOU'RE LOOKING FOR A SOLUTION TO SEAT TWENTY PEOPLE IN YOUR EXECUTIVE CONFERENCE ROOM OR IN NEED OF A STANDING TOUCHPOINT READY FOR QUICK COLLABORATION, JOURNEY HAS YOU COVERED WITH A LONG LINE OF CONFERENCE TABLE OPTIONS.**

With seated conference tables including lengths spanning 42" to 240", round tables up to 60" diameter, and solutions for standing that allow for a quick touchpoint or a full-blown collaborative space—Journey's expansive options allow you to create the workspace that suits your needs.

## ALL IN THE DETAILS

The entire Journey collection is comprised of thoughtful details. From power management to special add-ons and design options, you can really make it your own.

Starting with power options, pick the unit based on your need and the table size. Then add an optional PET shroud to conceal the power module and provide cable management. Next up, choose which leg(s) you would like "mouse holes" added to run cables in a smart way between the tabletop and floor. Speaking of special add-ons, Journey casegoods can easily be customized to integrate a fridge, AV rack, or slide-out recycling bin.

Then to maximize the design and delivery, pick all the details to make it yours. Whether your design calls for a splayed leg or a sawhorse leg, standing height or seated, and nearly any size you could imagine—we have you covered. As a bonus: the collection was designed to facilitate delivery and install. All tops are a maximum of 96" no matter the final length to make sure moving into any space is seamless. Each leg is freestanding and mounted onsite using pre-drilled holes for straightforward assembly.

---

## CAFÉ TABLES

When looking for the perfect café table, Journey checks all the boxes. The Journey café tables introduce a perfectly balanced disc base design for this collection. This seamlessly coordinates with the bold, round legs in the rest of the collection, while bringing café usability to the offering.

It comes in all your standard café sizes from 30" to 48" in square, rounded square, and round shapes. The disc base solution brings a host of benefits—including the stability to work in both a seated and standing height offerings.

## FEELING INSPIRED

The inspiration for this collection came from a mix of places—all of which use soft and approachable designs intermixed with strong and bold forms. The collection was designed to create standout, collaborative spaces that blend inviting furniture with simplicity and versatility. This balance of boldness and approachability brings a sense of ease to the workspace.

---

## OCCASIONAL TABLES

The perfect accent to any space, Journey's collection of occasional tables is small (literally) but mighty. Matching the café tables' disc base design, these tables range in height from 15" to 19" and their round tops range in diameter from 18" to 30". This means they sit comfortably independently but look great nested together.

The perfect add-on to the occasional table offering is the laptop table. This piece sits at 25" high and takes a skinny approach to the splay leg of the conference table design. Its 18" diameter top creates the perfect perch for your laptop and a cup of coffee.

**THE JOURNEY  
CASEGOODS  
COLLECTION WAS  
DESIGNED TO  
WORK SEAMLESSLY  
ALONGSIDE JOURNEY  
TABLES—AND YET,  
THE BEST PART  
ABOUT THEM IS  
THEY STAND JUST  
AS BEAUTIFULLY  
ON THEIR OWN.**

## **COLOR & MATERIAL**

With Journey, the color defines the collection. When so many of today's "trends" are driven by a handful of neutrals, we decided to break the mold.

With this collection, SurfaceWorks is introducing a new palette that focuses on saturated earth tones that further accentuate the approachability of the product. They're calming and intentional. This palette stands alone monochromatically and inspires a breadth of harmonious combinations.

Whether you need a large buffet for conference room storage or a small credenza to sit beneath your lobby TV, Journey has options that perfectly meet your needs with an attractive design and functional solution.

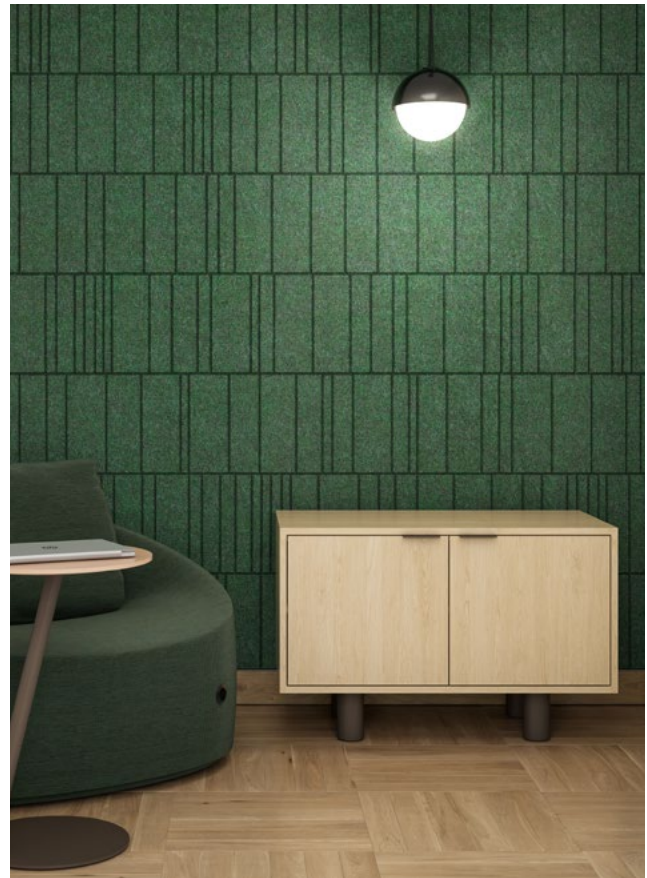

Make these casegoods work for you by selecting from options that include fully enclosed storage or partially opened shelving, adding drawers or cabinets, and selecting from sizes that fit little alcoves to something that adds significant storage to any space.

---

## MAKE IT YOURS

As a bonus, the design details elevate the casegoods collection even further. The options for mixing and matching materials are truly endless—whether all one finish or varying the cabinet fronts vs. the outer shell. The standard pulls blend into the design perfectly and are powder-coated to match the legs tying in the color story.

# JOURNEY OVERVIEW

## TABLE EDGES

## TABLE FEATURES & OPTIONS

## THE JOURNEY COLLECTION WAS DESIGNED AND DEVELOPED AS A TRUE COLLABORATION BETWEEN DESIGNER JARED SEIFERT OF DESIGN DECLASSIFIED AND THE TEAM AT SURFACEWORKS.

Centered on sharing ideas, the process ebbed and flowed through concepts, designs, prototyping, and production, ultimately landing on this versatile and approachable collection.

With the intent to create an up-to-date solution for today's gathering spaces, Jared lead the design direction. Through rounds of iterations and stages of prototyping, the collection is not only a broad mix of solutions that are flexible and cohesive, but it's also detail oriented with thoughtful add-ons and interesting touches. The pieces work perfectly together, but stand on their own just as well.
